PROGRAM OUTLINE

End of Year Festive Fun

How do I use this program outline?

1. Choose the activities and experiences you would like to add to your blank program template to compile a weekly, fortnightly or monthly plan.
2. Add chosen activities & experiences to the Empowered Ed **blank program template** (print or save to your computer) *or your own preferred template/app/form*. Make sure to fill in the dates when you compile your program to indicate if your plan is covering weekly, fortnightly or monthly.
3. Match the **numbered activities on your plan** to the corresponding activity guides (Playful Learning Page). **Click on the text links below the activity guide numbers for additional suggested activities and experiences relating to the program theme in each learning area.** If using the member Hub blank program template, I've made it easy for you by matching the learning areas in this program outline to the activity boxes on the template!
4. Fill out the separate **organisation planner** each week if you wish to help you keep up to date with all documentation requirements including reflection, prep, observations and forward planning (optional).
5. You **DO NOT** need to include every activity included in this program outline. Take what you need from the suggestions and tips to make planning a quicker and easier process for you. You know your children's needs best so always modify as needed (age ranges are suggestions only – children may be developing at different paces in your setting) and don't try to add too much each week – aim for a balance of spontaneous and intentional moments!
