

September Critical Reflection Prompts

the *empowered* educator 

1. What type of program format do I use? Does this work for me at the moment?

2. How do I plan my program experiences & how do I know this is working?

3. How am I consistently extending children's learning?

4. How am I deciding on what the children are interested in?

5. How am I listening to the children's ideas, and what do I do with them?

6. How do I know I am covering all learning outcome areas?

7. Do I regularly setup & complete my planned activities or feel too overwhelmed?

8. What do I LIKE about the way I do my program?
