

Space Food Rockets

#311

AGE GROUP

3-5 years

Multiage

6-12 years

HOW DO I SET UP & PLAY?

Curiosity Spark - What shape is a rocket/space ship?

- Help the children to chop their chosen fruit into rough cubes or slices, wash and drain well.
- Show how to thread carefully onto their kebob sticks to build a rocket body then finish with a strawberry to create the rocket 'pointy nose'.
- Eat for morning or afternoon tea!

EXTENDING LEARNING SPARKS

- Ask children to create a menu or recipe book of food items that astronauts could take into space. Provide recipe and space travel books for inspiration.
- Provide art materials for children to design labels and packages for imaginary space food - add to the dramatic play area.

WHAT MATERIALS DO I NEED?

- Strawberries
- Watermelon
- Banana
- Grapes or any other fruit your children like currently in season
- Bamboo skewer/kebob sticks or clean paddlepop craft sticks
