

Reach for the Stars

#336

Baby & Toddler

Multiage

6-12 years

HOW DO I SET UP & PLAY?

Curiosity Spark - How high can you jump or stretch?

- Cut some short and some long lengths from your streamer roll.
- Tape the stars you have cut out to the lengths of crepe paper . 5 - 10 star streamers to hang is enough.
- Now fix the other end of your streamer to the ceiling, window sill, door, furniture etc just out of reach of the children. Make sure to vary the heights and provide a few more challenging ones!
- Ask children to jump or stretch with their fingers and toes to see if they can reach a star. Keep moving around to try different ones.

EXTENDING LEARNING SPARKS

- Stick a velcro dot (rough side out) to the back of each star and press onto one edge of the carpet or mat. Children lie on their tummies and need to wiggle and push with their legs to reach a star - no hands allowed until they reach the star!
- Play a scavenger hunt game to run and find the stars you have hidden outside.

WHAT MATERIALS DO I NEED?

- Stars cut out of cardboard (or use template from the space printables pack).
- Roll of crepe paper streamers
- Masking or painters tape

Exploring & using my senses

Challenging my fine motor muscles
